

## THEORIES

Yesterday, church supremacy  
No way to think differently  
Jack came with a theory, to burn them  
Pale icon and some blood to waste, to protect us

Today, rats are outside  
Cheese and diseases are inside  
Jack came with a theory, to lock them  
Big walls and shotguns, to protect us

Protect us

**Jack always had the solution, Jack is in peace and will save us (X3)  
Follow him and don't try to think, Jack will lead us to a better world**

Tomorrow, law of numbers  
Each thought is now registered  
Jack came with a theory, to control them  
Binary classification, to protect us

Protect us

**Jack always had the solution, Jack is in peace and will save us (X3)  
Follow him and don't try to think, Jack will lead us to a better world**

Today, will be the day  
Freedom seems so weak  
Jack won't come with a theory, to control us  
Common sense will tell us, to wake up
